# Subjects and Titles

A

Abscesses, epidural
  cervical, with osteomyelitis of odontoid process, 133
  of cervical spine, with osteomyelitis of odontoid process, 133
Acupuncture, for low back pain management, effectiveness of, 1113
Adenosine, effect on arachidonic acid metabolites, in experimental acute spinal cord injury, 128
Adolescents
  head-on-neck posture in, backpacks and, 2262
  low back pain in, smoking as risk factor for, 2492
  scoliosis in. *See* Scoliosis, adolescent
  with spine deformities, impact of type of brace on quality of life of, 1903
Adults
  deformity in, complications with combined surgery, 355
  elderly. *See* Geriatric population
  scoliosis in, surgical indications, operative management, complications, and outcomes in, 2617
  young, with Cushing's disease, severe kyphosis secondary to glucocorticoid-induced osteoporosis, 189
Aggrecan gene, polymorphism of, association between lumbar disc degeneration and, 2456
Aging. *See also specific age groups*
  fibromodulin in intervertebral discs and, 1765
Analgesia
  epidural injection for, iatrogenic *Mycobacterium* infection after, 1257
  postoperative, after major lumbar spinal surgery, optimal dosage of intrathecal morphine for, 1131
Angiosarcoma, cardiac, metastatic, of cervical spine, 1156
Antigen-antibody complexes, presence and distribution in herniated nucleus pulposus, 1980
Anulus fibrosus
  cervical, 619
  immunohistochemical study of nerve structures in, 2075
  lumbar, anisotropic hydraulic permeability of, 2449
  viscoelastic properties of cells of, 2475
Anxiety, relative influence of perceived pain control, anxiety, and functional self efficacy on spinal function among patients with chronic low back pain and, 2254
Arachidonic acid metabolites, adenosine effects on, in experimental acute spinal cord injury, 128
Arteriovenous malformations, multiple, gigantic, with destruction of lumbar vertebral bodies, 1377
Arthrodesis
  augmentation of spinal arthrodesis with autologous bone marrow in posterolateral fusion and, 434
  for diastrophic dysplasia, 2325
  lumbar
    anterior interbody, femoral ring versus fibular strut allografts in, biomechanical analysis of, 659
    new formulations of demineralized bone matrix for, in experimental posterolateral arthrodesis, 637
    with recombinant human bone morphogenetic protein 2/hydroxyapatite-tricalcium phosphate, after laminectomy in nonhuman primates, 1179
  thoracic, osteogenic protein versus autologous interbody arthrodesis in, comparative endoscopic study of, 509
Atherosclerosis, association with low back pain, degree of disc degeneration and, 2080
Athletes, elite, outcome of lumbar discectomy in, 570
Atlantoaxial injuries, biomechanics of injury and wiring and, 1894
Atlas, atlas-axis facet asymmetry, manual palpation and, 1203
Axis, atlas-axis facet asymmetry, manual palpation and, 1203

B

Back pain. *See also* Low back pain
  centralization phenomenon and, 676
  in slim premenopausal women, with low bone mineral density in lumbar spine, effect of estrogen-progestin treatment on, 704
BAK cages, laparoscopic approach to L4-L5 for interbody fusion using, 2171
Basic fibroblast growth factor, effects on spontaneous resorption of herniated intervertebral discs, in rabbit, 940
Behavior therapy, efficacy of risk factor-based cognitive behavioral intervention and electromyographic biofeedback in patients with acute sciatic pain and, 2525
Biering-Sorensen test, in low back pain, reliability and validity of, 2085
Biofeedback, efficacy of risk factor-based cognitive behavioral intervention and electromyographic biofeedback in patients with acute sciatic pain and, 2525
Biomechanics
  anterior shear of spinal motion segment and, in porcine model, 1882
  of anterior thoracolumbar instrumentation
    in cadaveric spines, 213
    static and fatigue properties and, 1406
  of anterior versus circumferential spinal reconstruction for tumor lesions, 445
  atlas-axis facet asymmetry and, manual palpation and, 1203
  augmentation of anterior solid rod construct with threaded cortical bone dowels and, 2300
  of calcium phosphate bone substitute, for prophylactic augmentation of osteoporotic vertebrae and management of vertebral compression fractures, 1521
  of cervical laminectomy and laminoplasty, in goat model, 1283
  effect of locking fixation screws on stability of anterior cervical plating and, 334
  efficacy of unipedicular versus bipedicular vertebroplasty for management of osteoporotic compression fractures and, 1772
  evaluation of five different occipito-atlanto-axial fixation techniques and, 2377
  of femoral ring versus fibular strut allografts, in lumbar spine anterior interbody arthrodesis, 659
  follower load and, lumbar spine load-carrying capacity in compression and, 1003
  geometric measurements of lumbar spine in Chinese men during trunk flexion and, 666
  growth rate and collagen synthesis of nucleus pulposus and, cyclic mechanical stretch stress and, 315
  human growth hormone transgene expression and increase in biomechanical structural properties of mouse vertebrae and, 1
  of increased exposure to lumbar injury caused by cyclic loading, 2461
    loss of reflexive muscular stabilization and, 2426
  influence of spinal kyphosis on adjacent motion segments and, *in vivo* animal model of, 2139
  of injury and wiring and C1-C2, 1894
  internal spinal fixator stiffness influence on stresses in adjacent discs and, 1192
  localized stresses in intervertebral discs resulting from loose fragments and, 2214
  loosening at screw-vertebra junction in multilevel anterior cervical plate constructs and, 2383
  of lumbar discs, influence of disc height and cross-sectional area on mechanical response of disc to physiologic loading and, 1873
  lumbar spine stability after multilevel fenestration and discectomy and, 1277
  measurement of strain distributions within vertebral body sections by texture correlation and, 10
  motion analysis of cervical vertebrae during whiplash loading and, 763
  of newly developed monocortical expansion screw for use in anterior internal fixation of cervical spine, comparison with two established internal fixation systems, 207
  occipital screw pullout strength and, 5
  occipitocervical neutral position and, surgical implications of, 775
  of pedicle screw loading
    effect of surgical technique on intravertebral and intrapedicular bending moments and, 18
    loads to failure of pedicle and transverse process screws of upper thoracic spine and, 654
    sagittal insertion angle effect on intrapedicular bending moments and, 1077
  of percutaneous transpedicular external fixation pins to measure intervertebral motion, 1890
  of posterior stabilization of degenerative lumbar spondylolisthesis, with Leeds-Keio artificial ligament, 26
  of reconstruction after multilevel corpectomy, in cervical spine, 1186
  role of intervertebral disc and costovertebral joint in stability of thoracic spine and, 1414
  of spondylolysis fixation techniques, 328
  stability analysis of enhanced load sharing posterior fixation device and equivalent conventional device and, in calf model, 2206
  stability of reconstruction methods after thoracolumbar total spondylectomy and, 1634
  stabilizing potential of anterior cervical plates in multilevel corpectomies and, 2219
  surface strain distribution on thoracic and lumbar vertebrae under axial compression and, burst fractures and, 1197
  of transverse process screw loading, loads to failure of pedicle and transverse process screws of upper thoracic spine and, 654
  of traumatic instabilities of cervical spine caused by high-speed axial compression, 440
  *in vitro* effects of instrumentation on multilevel cervical strut-graft mechanics and, 2366
  volume and fluid content of intervertebral discs and, changes during simulated diurnal load cycle, 1015
  in whiplash injury, biomechanical experimentation and, 83
Biomodeling, 1247
The Bone and Joint Decade, 2000-2010, for Prevention and Treatment of Musculoskeletal Disorders, 1055
Bone grafts
  anterior column structural allografts, in thoracic and lumbar spine, 5-year follow-up of, 967
  direct spondylolysis repair using rod-screw construct and bone grafting of pars defect and, 1252

femoral ring versus fibular strut allografts, in anterior interbody lumbar arthrodesis, biomechanical analysis of, 659
freeze-dried, anterior cervical discectomy with, 852
harvesting of, from posterior iliac, complete pelvic ring failure after, 2101
new formulations of demineralized bone matrix as alternative for, in experimental posterolateral lumbar spine arthrodesis, 637
volumetric change of, after intertransverse fusion, 428
Bone mineral density
degenerative lumbar listhesis and bone mineral density in elderly women and, 2536
low, in lumbar spine, in slim premenopausal women, estrogen-progestin treatment effect on back pain and disability in, 704
Bone morphogenetic protein
experimental spinal fusion with, 1402
immunolocalization of, in intervertebral disc degeneration, 1414
lumbar arthrodesis with, after laminectomy in nonhuman primates, 1179
lumbar spine fusion using
in dogs, 1973
posterolateral, overcoming of ketorolac inhibitory effect on, 2188
recombinant
to promote spinal fusion, in nonhuman primate anterior interbody fusion model, 629
safety after spinal laminectomy, in dog, 747
sintered bovine bone coated with, in spinal fusion, experimental, 1863
Bone substitutes, calcium phosphate, for prophylactic augmentation of osteoporotic vertebrae and management of vertebral compression fractures, biomechanical analysis of, 1521
Braces
halo-Milwaukee brace, 2273
impact of type of brace on quality of life of adolescents with spine deformities, 1903
variability of strap tension in brace treatment for adolescent scoliosis and, 349
Britain, physiotherapy for low back pain in, 1332
Brown-Sequard syndrome, after management of vertebral hemangioma with intralesional alcohol, 1845

C

Calcium phosphate bone substitute, for prophylactic augmentation of osteoporotic vertebrae and management of vertebral compression fractures, biomechanical analysis of, 1521
Camptocormia, 1494
Cardiopulmonary system, severe progressive osteoporotic spine deformity with cardiopulmonary impairment and, 489
Cauda equina, chronically compressed, behavioral and morphological studies of, in experimental model of lumbar spinal stenosis in rat, 845
Centralization phenomenon, in neck and back pain syndromes, 676
Cerebrocosto-mandibular syndrome, scoliosis secondary to, 908
Cerebrospinal fluid
nerve tissue injury markers in, with lumbar disc herniation and sciatica, 742
of patients with low back pain and sciatica, antibodies against psoriasis-associated antigen Pso p27 in, 373
protein markers in, in experimental nerve root injury, 2195
Cervical spine
active and passive range of motion in, clinical validity and stability with regard to total and unilateral uniplanar motion, 1082
anatomic relation between pedicle and adjacent neural structures of, 451
anterior, reconstruction using titanium cages with anterior plating, 1604
anterior decompression and fusion of, strain on intervertebral discs after, 670
biomechanics of injury and wiring and C1-C2 and, 1894
biomechanics of newly developed monocortical expansion screw for use in anterior internal fixation of, comparison with two established internal fixation systems, 207
bipedicular developmental anomaly of C2 vertebra and, helical computed tomography and three-dimensional reconstruction of, 984
chordoma in, en bloc excision of, 1848
complications of buttress plate stabilization of cervical corpectomy and, 2404
corpectomy in. *See* Corpectomy, cervical
discectomy in, anterior
discectomy and fusion for neck pain management and, 2224
with freeze-dried fibula allograft, 852
discs of
herniation of, influence of cervical spinal canal measurements on development of neurologic symptoms and, 1996
ligaments and anulus fibrosus of, 619
dislocations of, closed traction reduction of, magnetic resonance imaging evaluation before and after, 1210
dynamic motion analysis of, using cineradiography, 163
effect of locking fixation screws on stability of anterior cervical plating and, 334
epidural abscess of, with osteomyelitis of odontoid process, 133
evaluation of five different occipito-atlanto-axial fixation techniques and, 2377
facet coverage in children on flexion lateral radiographs of, 339
flexion, extension, protrusion, and retraction of, radiographic segmental analysis of, 340
fractures of
hangman's, displaced, transoral fusion with internal fixation in, 295
laminar, neurologic compromise after, 1144
posterior, efficacy of magnetic resonance imaging for evaluating, 771
fusion in, anterior
discectomy and fusion for neck pain management and, 2224
interbody, with coralline hydroxyapatite, 1295
for myelopathy, developmental and dynamic canal stenosis as radiologic factors affecting results of, 1421
kyphosis in
correction using pedicle screw fixation systems, 2389
in diastrophic dysplasia, 1990
laminectomy in, biomechanics of, in goat model, 1283
laminoplasty in
biomechanics of, in goat model, 1283
canal-expansive, for spondylotic myelopathy in elderly patients, 2308
for posterior shifting of spinal cord, 1527
lateral mass screws in, unicortical and bicortical, 2389
loosening at screw-vertebra junction in multilevel anterior cervical plate constructs and, 2383
metastatic cardiac angiosarcoma of, 1156
motion analysis of cervical vertebrae during whiplash loading and, 763
muscles of, maximal isometric strength of, 1343
myelopathy of
in patients more than 75 years of age, outcomes of surgical treatment for, 529

load-carrying capacity of, in compression, follower load and, 1003
lordosis of, vertebral centroid measurement of, Cobb technique compared with, 1786
lower, peridiscal anatomy of, endoscopic perspective on, 2183
lymphangioma presenting as dumbbell tumor in epidural space of, 74
magnetic resonance imaging of, clinical significance of high-intensity zone on, 1913
maintaining lordosis with anterior single solid-rod instrumentation in thoracolumbar and lumbar adolescent idiopathic scoliosis and, 1655
new formulations of demineralized bone matrix for, in experimental posterolateral lumbar spine arthrodesis, 637
pachymeningeal gadolinium enhancement of, secondary to neuraxis hypotension, 463
pedicle screw insertion in, percutaneous, techniques for, 1599
posterior stabilization of degenerative lumbar spondylolisthesis with Leeds-Keio artificial ligament, biomechanics of, 26
radiofrequency lumbar facet denervation for chronic low back pain and, 1937
reconstitution of lumbar discs after chemonucleolysis and, 342
sciatica in, markers of, in cerebrospinal fluid, 742
spontaneous lumbar curve coronal correction after selective anterior or posterior thoracic fusion in adolescent scoliosis and, 1663
stenosis of
decompressive relief and its relation to clinical outcome in patients undergoing surgery for, 1010
experimental model of, behavioral and morphological studies of chronically compressed cauda equina in, 845
intraoperative somatosensory evoked potentials in, 1029
after laminectomy, long-term clinical and magnetic resonance imaging follow-up assessment of, 1533
microdecompression for, 2268
nerve root herniation secondary to lumbar puncture in, 915
radiologic and computed tomography image evaluation of bone regrowth after wide surgical decompression for, 281
surgery of
for disc prolapse and degenerative lumbar spondylosis, 1820
optimal dosage of intrathecal morphine for analgesia after, 1131
posterior, serial changes in trunk muscle performance after, 1023
postoperative foot drop and, due to gas bubble, 299
predictors of surgical outcome for degenerative lumbar spinal stenosis and, 2229
unstable injuries of, treatment using Cotrel-Dubousset instrumentation, 2352
variability of outcome after disc surgery of, 807
vertebral bodies of, multiple gigantic arteriovenous malformations with destruction of, 1377
*in vivo* evaluation of direct current electrical stimulation and coralline hydroxyapatite in, 2127
*in vivo* intradiscal pressure measurement in, in healthy individuals and patients with ongoing back problems, 2468
yellow ligament of, membranocystic lesion in, 1147
Lumbosacral spine
disc disease in, degenerative, above L5-S1 segment, arthrodesis for, 1268
fixation of, transpedicular, external, temporary, 481
position sense of, effect of paraspinal muscle vibration on, 1328
traumatic open anterior fracture dislocation of, 184
Luque trolley, for scoliosis management, in infants and children, 1538
Lymphangioma, presenting as dumbbell tumor in epidural space, of lumbar spine, 74

## M

Magnetic resonance imaging
of chronic odontoid fractures, 158
before and after closed traction reduction of cervical spine dislocations, 1210
correlation between curve severity and somatosensory evoked potentials and, in adolescent scoliosis, 1679
determining lumbar vertebral segments on, 1852
differentiating lumbar disc protrusions, disc bulges, and discs with normal contour but abnormal signal intensity using, 44
for evaluation of cervical spondylitic myelopathy and radiculopathy, computed tomography compared with, 1781
of intervertebral discs, changes in volume and fluid content of, during simulated diurnal load cycle, 1015
intramedullary signal change on, prediction of surgical outcome in cervical spondylotic myelopathy and, 455
kinematic
for os odontoideum diagnosis, 715
of upper cervical spine, novel positioning device for, 2046
of lumbar spine, clinical significance of high-intensity zone on, 1913
in posterior cervical spine fractures, efficacy for evaluating, 771
of thoracic spine, in asymptomatic and symptomatic individuals, 1548
Magnetic stimulation, motor-evoked potentials elicited from human erector spinae muscles by, 154
Massage, for low back pain, motorized lumbar traction and interferential therapy compared with, 1579
Mast cells, disc herniation inflammation and, 1516
Medicine, Hippocratic tradition and, 1159
Metastatic disease
of cervical spine, 1156
intraoperative radiation therapy for, 470
spinal manifestation of metastasizing leiomyosarcoma and, 987
surgery for
complications, survival rates, and risk factors of, 1943
quality of life and, 2240
Methylprednisolone, in spinal cord injury, silicone rubber microangiography and, in rats, 2201
Microangiography, silicone rubber, in spinal cord injury, after methylprednisolone and vitamin E treatment, in rats, 2201
Microdiscectomy, lumbar, pain following, minimization by irrigation and cooling, 1958
Molecular biology, spinal disorders and, 723
Morphine, intrathecal, optimal dosage for analgesia after major lumbar spinal surgery, 1131
Motor-evoked potentials
elicited from human erector spinae muscles by transcranial magnetic stimulation and, 154
for predicting and monitoring effects of therapy in spondylotic cervical myelopathy, 1593
Muscles
abdominal, importance for maintenance of spinal sagittal balance, 719
biomechanics of increased exposure to lumbar injury caused by cyclic loading and, loss of reflexive muscular stabilization and, 2426

cervical, maximal isometric strength of, 1343
electromyographic power spectrum analysis of lumbar paraspinal muscle fatigue and, reproducibility of, 883
electromyographic responses of back and limb muscles associated with spinal manipulative therapy and, 146
electromyography for back muscle fatigue detection and, during isokinetic constant-torque exertions, wavelet analysis of, 1791
examining muscle forces from muscle cross-sectional area using psoas muscle and, 1487
motor-evoked potentials elicited from human erector spinae muscles by transcranial magnetic stimulation and, 154
paraspinal, vibration of, effect on position sense of lumbosacral spine, 1328
physiological response to submaximal isometric contractions of paravertebral muscles and, 2332
predictors of isokinetic back muscle strength in patients with low back pain and, 275
recovery from exercise-induced desaturation in paraspinal muscles in idiopathic scoliosis and, 2019
trunk, serial changes in performance after posterior lumbar surgery, 1023
of trunk, weakness of, as risk factor for low back pain, 54
Muscular dystrophy, Duchenne's, scoliosis with, surgical management of, process measures and patient/parent evaluation of, 1300
Myelopathy
caused by ossification of posterior longitudinal ligament in cervical spine, posterior decompression by midsagittal splitting method for, 32
cervical
fusion for, developmental and dynamic canal stenosis as radiologic factors affecting results of, 1421
in patients more than 75 years of age, outcomes of surgical treatment for, 529
spondylotic
computed tomography compared with magnetic resonance imaging for evaluation of, 1781
in elderly patients, canal-expansive cervical laminoplasty for, 2308
evoked potentials for predicting and monitoring effects of therapy in, 1593
predicting surgical outcome using intramedullary signal change on magnetic resonance imaging and, 455
compressive
due to solitary intraspinal vertebral osteochondroma, 77
with vertebral synovial osteochondromatosis, 921

N

Neck pain, centralization phenomenon and, 676
Nerve injury, markers of, in cerebrospinal fluid, with lumbar disc herniation and sciatica, 742
Nerve roots
experimental injury of, protein markers in cerebrospinal fluid in, 2195
herniation of, secondary to lumbar puncture in lumbar canal stenosis, 915
pressure on, in lumbar disc herniation, 2003
Neurofibromatosis
dystrophic spinal curves in, surgical correction of, 2247
spondyloptosis of cervical spine in, 587
Neurologic function
compromise after isolated laminar fracture of cervical spine, 1144
influence of cervical spinal canal measurements on development of neurologic symptoms with disc herniation and, 1996
neurologic injury and recovery in patients with burst fracture of thoracolumbar spine and, 290
traumatic L1-L2 dislocation without fracture in 6-year-old girl and, 1483
Neuromotor evoked potentials, intraoperative experience with, 2030
Neuroprotection, by progesterone, after acute experimental spinal cord trauma, in rats, 2134
North American Spine Society Presidential Speech, 2120
Nucleus pulposus
epidurally transplanted, chondroitinase ABC action on, in rabbit, 1071
growth rate and collagen synthesis of, cyclic mechanical stretch stress and, 315
herniated, presence and distribution of antigen-antibody complexes in, 1980
neovascularization of, diagnosis of intervertebral disc prolapse and, 739
viscoelastic properties of cells of, 2475

O

Obesity, low back pain and, 779
Occipital pain, in osteoid osteoma, 912
Occipitocervical junction, pyogenic osteomyelitis of, conservative management of, 818
Occupational health
comparison of methods for determining low back disorders in manufacturing environment, 1441
dynamic forces acting on lumbar spine during manual handling and, estimation using electromyographic techniques alone, 698
effectiveness of Waddell's nonorganic signs in predicting delayed return to work in patients with acute occupational low back pain and, 396
effect of whole-body vibration on low back and, 2506
effects of prework functional screening on lowering employer's injury rate, medical costs, and lost work days and, 269
industrial black belts for lifting and, effect on trunk and pelvic coordination, 1124
influence of occupation on lumbar degeneration and, 1164
mechanisms explaining association between low back trouble and deficits in information processing and, 255
predictors of isokinetic back muscle strength in patients with low back pain and, 275
relative influence of perceived pain control, anxiety, and functional self efficacy on spinal function among patients with chronic low back pain and, 2254
reliability of American Medical Association Guides' model for measuring spinal range of motion and, implication for whole-person impairment rating, 262
return to work after surgery for lumbar disc herniation and, 872
rise of occupational low back pain, 697
risk indicators for sick-listing due to low back pain and, 1562
Odontoidectomy, biomechanics of injury and wiring and, 1894
Odontoid fractures
biomechanics of injury and wiring and, 1894
chronic, computed tomography and magnetic resonance imaging of, 158
Orthotics
halo-Milwaukee brace, 2273
impact of type of brace on quality of life of adolescents with spine deformities, 1903
variability of strap tension in brace treatment for adolescent scoliosis and, 349
Os odontoideum
kinematic magnetic resonance imaging for diagnosis of, 715
retro-odontoid soft tissue mass in, complete reduction following posterior C1-C2 transarticular screw fixation, 1961
Osteoarthritis, of facet joints, resulting from anular rim lesions in sheep lumbar discs, 519
Osteochondroma, intraspinal, solitary, compressive myelopathy due to, 77
Osteochondromatosis, synovial, vertebral, with compressive myelopathy, 921
Osteogenesis imperfecta, spinal deformity, pulmonary compromise, and quality of life in, 1673
Osteoid osteoma, occipital pain in, 912
Osteomyelitis
of odontoid process, epidural abscess of cervical spine with, 133
pyogenic
caused by *Campylobacter fetus subspecies fetus*, 582
of occipitocervical junction, conservative management of, 818
Osteopenia, persistent, in adolescent scoliosis, 1218
Osteoporosis
compression fractures in, biomechanical efficacy of unipedicular versus bipedicular vertebroplasty for management of, 1772
fractures secondary to, spinal curvatures and quality of life in women with, 1921
glucocorticoid-induced, secondary to severe kyphosis, in young adult with Cushing's disease, 189
prophylactic augmentation of, calcium phosphate bone substitute for, biomechanical analysis of, 1521
severe progressive osteoporotic spine deformity with cardiopulmonary impairment, 489
Osteotomies
for flatback deformity, complications and predictive factors for, 1712
of spinous processes, to facilitate lumbar decompressive surgery, 62

P

Pain
back. *See also* Low back pain
centralization phenomenon and, 676
in slim premenopausal women, with low bone mineral density in lumbar spine, effect of estrogen-progestin treatment on, 704
following lumbar microdiscectomy, minimization by irrigation and cooling, 1958
neck, centralization phenomenon and, 676
occipital, in osteoid osteoma, 912
sensitivity to, as correlate of clinical status in low back pain, 2035
Pars, direct spondylolysis repair using rod-screw construct and bone grafting of pars defect and, 1252
Pediatric patients. *See also* Adolescents; Scoliosis, adolescent
cervical spine of, bisegmental rotational fracture dislocation of, 904
discitis in, abdominal symptoms in, anterior disc protrusion as cause for, 918
facet coverage in children on flexion lateral cervical radiographs and, 339
low back pain with early disc degeneration in, 1316
scoliosis in. *See also* Scoliosis, adolescent
congenital, with posterior spinal arthrodesis T2-L3, with 41-year follow-up, 194
Luque trolley and convex epiphysiodesis in management of, 1538
spinal curve in standing and sitting postures in, 169
seat-belt fracture in, with late development of enterocolic fistula, 1151
spondylolisthesis in
cause, natural history, and management of, 2639
dysplastic, complications in surgical treatment of, 1701

traumatic L1-L2 dislocation without fracture in 6-year-old girl and, 1483
Pedicles, cervical, anatomic relation between pedicle and adjacent neural structures and, 451
Pedicle screws
with concurrent posterolateral fusion and posterior interbody fusion, for chronic low back pain, 2042
correction of cervical kyphosis using, 2389
effect of surgical technique on intravertebral and intrapedicular bending moments and, 18
evaluation of five different occipito-atlanto-axial fixation techniques and, 2377
evaluation of position in thoracic and lumbar spine fixation, plain radiographs and computed tomography for, 1926
hardware failure in unconstrained lumbar pedicle screw system, 2-year follow-up study of, 1138
loading of
effect of surgical technique on intravertebral and intrapedicular bending moments and, 18
loads to failure of pedicle and transverse process screws of upper thoracic spine and, 654
sagittal insertion angle effect on intrapedicular bending moments and, 1077
outcomes of posterolateral fusion of lumbar spine with and without, 553
percutaneous insertion of, in lumbar spine, techniques for, 1599
pilot hole placement for, radiographic verification using Kirshner wires versus beaded wires, 476
posterior occipitocervical reconstruction using cervical pedicle screws and plate-rod systems and, 1425
in thoracic spine, morphometric and cadaveric study for placement of, 114
titanium, metal debris from, 899
Pelvic asymmetry, static, associated with low back pain, 1234
Pelvic ring, complete failure of, following harvesting of bone grafts from posterior iliac, 2101
Periodontoid pannus mass, in psoriatic atlantoaxial subluxation of cervical spine, spontaneous regression of, 578
Physical examination, intertester reliability of low back pain classification system and, 248
Physical therapy, for low back pain, in Britain and Ireland, 1332
Pinealectomy, scoliosis after, 35
Pin fixation, percutaneous transpedicular external fixation pins to measure intervertebral motion and, 1890
Plate fixation
posterior occipitocervical reconstruction using cervical pedicle screws and plate-rod systems and, 1425
stabilizing potential of anterior cervical plates in multilevel corpectomies and, 2219
Plating, cervical
anterior, efficacy in management of pseudoarthrosis of cervical spine, 860
complications of buttress plate stabilization of cervical corpectomy and, 2404
loosening at screw-vertebra junction in multilevel anterior cervical plate constructs and, 2383
reconstruction using titanium cages with anterior plating and, 1604
Platyspondylia, in Stickler's syndrome, 1260
Position sense
effect of lumbar fatigue on ability to sense change in lumbar position and, 1322
of lumbosacral spine, effect of paraspinal muscle vibration on, 1328
Positron-emission tomography, potential usefulness of $^{18}$F-2-fluoro-deoxy-D-glucose positron emission tomography in compressive cervical myelopathy and, 1449
Posture, head-on-neck, in adolescents carrying backpacks, 2262
Presidential Address, The Lumbar Spine in the 2000s, 991
Progesterone, neuroprotection by, after acute experimental spinal cord trauma, in rats, 2134
Progestin, effect on back pain and disability in slim premenopausal women, with low bone mineral density in lumbar spine, 704
Proteoglycan, synthesis of, after chemonucleolysis of rabbit intervertebral discs, serial changes in rate of, 1066
Prune-belly syndrome, maintenance of spinal sagittal balance in, importance of intact abdominal musculature mechanism for, 719
Pseudoarthrosis, cervical, efficacy of anterior cervical plating in management of, 860
Psoriasis
antibodies against psoriasis-associated antigen Pso p27 and, in cerebrospinal fluid of patients with low back pain and sciatica, 373
atlantoaxial subluxation of cervical spine and, periodontoid pannus mass in, spontaneous regression of, 578
Psychological disturbance, association between disability and, in noncompensation patients, posterior lumbar interbody fusion and, 1833

Q

Quality of life
of adolescents with spine deformities, impact of type of brace on, 1903
in osteogenesis imperfecta, 1673
spinal curvatures and, in women with vertebral fractures secondary to osteoporosis, 1921
surgery for symptomatic spinal metastases and, 2240

R

Radiation therapy, intraoperative, for metastatic tumors, 470
Radiculopathy, cervical
computed tomography compared with magnetic resonance imaging for evaluation of, 1781
outcome in patients with, 591
Radiofrequency denervation, of lumbar facets, for chronic low back pain, 1937
Radiography
developmental and dynamic canal stenosis as radiologic factors affecting results of anterior cervical fusion for myelopathy, 1421
for evaluation of pedicle screw position in thoracic and lumbar spine fixation, 1926
facet coverage in children on flexion lateral cervical radiographs and, 339
optimal method for assessing spinal canal compromise and cord compression and, with spinal cord injury, 598, 605
radiologists' interpretation of pre- and postoperative radiographs with interobserver and interdisciplinary variability in scoliosis and, 2007
verification of pilot hole placement for pedicle screws using, Kirshner wires versus beaded wires for, 476
Randomized trials, in spine surgery, 2548, 2550, 2553, 2556
Range of motion
cervical, active and passive, clinical validity and stability with regard to total and unilateral uniplanar motion, 1082
reliability of American Medical Association Guides' model for measuring, implication for whole-person impairment rating, 262
Recombinant human cathepsin L, chemonucleolysis and chymopapain compared with, radiologic, histologic, and immunohistochemical assessment of, 120
Rehabilitation. *See also* Functional restoration
clinical trial of three active therapies for low back pain and, 2435
outcomes of disabling cervical spine disorders in compensation injuries and, comparison to tertiary rehabilitation response from chronic lumbar spinal disorders, 178
Research, publication rates of presentations at meetings and, 425
Root compression, cervical, monitoring by flexor carpi radialis H-reflex in, 137

S

Sagittal balance, importance of intact abdominal musculature for maintaining, 719
Scheuermann kyphosis, 2630
Sciatica
caused by cervical and thoracic spinal cord compression, 1265
cerebrospinal fluid of patients with, antibodies against psoriasis-associated antigen Pso p27 in, 373
efficacy of risk factor-based cognitive behavioral intervention and electromyographic biofeedback in patients with, 2525
extraspinal bone and soft-tissue tumors as cause of, 1611
markers of, in cerebrospinal fluid, 742
severe, recovery in, 2516
Scoliosis
adolescent
anterior and posterior instrumentation for correction of, comparison of, 225
comparison of instrumentation techniques for, 2011
correlation between curve severity, somatosensory evoked potentials, and magnetic resonance imaging in, 1679
hemodilution to reduce transfusion requirements in spine fusion surgery for, 219
kinematics of chest cage and spine during breathing in, 1310
persistent osteopenia in, 1218
Scoliosis Research Society instrument for evaluation of surgical outcome in, 1435
spontaneous lumbar curve coronal correction after selective anterior or posterior thoracic fusion in, 1663
treatment of, 2601
surgical, 2607
variability of strap tension in brace treatment for, 349
adult, surgical indications, operative management, complications, and outcomes in, 2617
in children
congenital, with posterior spinal arthrodesis T2-L3, with 41-year follow-up, 194
Luque trolley and convex epiphysiodesis in management of, 1538
spinal curve in standing and sitting postures in, 169
Duchenne's muscular dystrophy with, surgical management of, process measures and patient/parent evaluation of, 1300
fusion levels for, selection using torsional correction techniques, 1728
historical perspective on treatment of, 2570
idiopathic, cause of, 2576
infantile, Luque trolley and convex epiphysiodesis in management of, 1538
instrumented, late-developing infection in, 1909
left thoracic curve patterns and, 1228
pathogenesis of, experimental study of, in rats, 1985
percutaneous discectomy with experimental external fixation in management of, 646
after pinealectomy, 35

primary posterior instrumentation and fusion for, patients' perceptions of overall function, pain, and appearance after, 1693
radiologists' interpretation of pre- and postoperative radiographs with interobserver and interdisciplinary variability in, 2007
recovery from exercise-induced desaturation in paraspinal muscles in, 2019
rotations of helix as model for correction of, 1223
school screening for, 2584
ten-year follow-up evaluation of program and, 2318
secondary to cerebrocosto-mandibular syndrome, 908
spinal growth and Risser grade in, correlation of, 535
in Stickler's syndrome, 1260
surgery for
blood loss and coagulation factors in, effects of deamino-8-D-arginin vasopressin on, 877
variability of somatosensory evoked potentials in different stages of, 1799
Screening, for scoliosis, in schools, 2584
ten-year follow-up evaluation of, 2318
Screw fixation. *See also* Pedicle screws
anatomic relation of lateral mass screws to spinal nerves and, comparison of techniques for, 2057
biomechanics of newly developed monocortical expansion screw for use in anterior internal fixation of cervical spine, comparison with two established internal fixation systems, 207
effect of locking fixation screws on stability of anterior cervical plating and, 334
loads to failure of pedicle and transverse process screws of upper thoracic spine and, 654
occipital screw pullout strength and, 5
perioperative determination of safe superior transarticular screw trajectory through lateral mass and, 1477
posterior C1-C2 transarticular screw fixation in os odontoideum and, complete reduction following, 1961
Seat-belt fractures, in child, with late development of enterocolic fistula, 1151
Shear, anterior, of spinal motion segment, in porcine model, 1882
Shear fractures, of axis, 2278
Skull. *See also* Head
immature, comparison of various angles of halo pin insertion in model of, 1777
Smoking, low back pain and, 1090
epidemiology of, 1463
Somatosensory evoked potentials
correlation between curve severity and magnetic resonance imaging and, in adolescent scoliosis, 1679
intraoperative, in spinal canal compromise, 1029
for predicting and monitoring effects of therapy in spondylotic cervical myelopathy, 1593
variability in different stages of scoliosis surgery, 1799
Spinal cord
compression of
caused by unusual location and extension of ossified ligamenta flava, 486
cervical and thoracic, sciatica caused by, 1265
extraosseous extension of hemangioma causing, 2111
contusion of, neurologic recovery following, influence of spinal canal narrowing and timing of decompression on, 1623
posterior shifting of, decompression enlargement laminoplasty for, 1527
Spinal cord injury
acute, experimental, neuroprotection by progesterone and, in rats, 2134
Brown-Sequard syndrome after management of vertebral hemangioma with intralesional alcohol and, 1845
experimental, adenosine effect on arachidonic acid metabolites in, 128
functional independence measure in, Self-Reported Functional Measure derived from, validity of, 539
optimal radiologic method for assessing spinal canal compromise and cord compression in, 598, 605
silicone rubber microangiography in, after methylprednisolone and vitamin E treatment, in rats, 2201
spinal cord regeneration and, 926
Spinal curve
quality of life and, in women with vertebral fractures secondary to osteoporosis, 1921
in standing and sitting postures, in children with scoliosis, 169
Spinal fixation. *See also specific regions of spine*
external, experimental, with percutaneous discectomy, in scoliosis management, 646
internal
lumbar spine, stiffness and, influence on stresses in adjacent discs, 1192
transoral spinal fusion with, for displaced hangman's fracture, 295
for spondylolysis, biomechanics of fixation techniques for, 328
transpedicular, of lumbar spine, stability of, determination by roentgen stereophotogrammatic analysis, 687
Spinal fusion. *See also specific regions of spine*
for degenerative spondylolisthesis, treated with decompression and instrumented posterior fusion, minimum 5-year results of, 1721
experimental
with bone morphogenetic protein 2, 1402
sintered bovine bone coated with type I collagen and recombinant human bone morphogenetic protein-2 in, 1863
hemodilution to reduce transfusion requirements in, in adolescent scoliosis, 219
high-risk population with, implantable electrical stimulation with spinal instrumentation, 465
intertransverse, volumetric change of graft bone after, 428
for isthmic spondylolisthesis, anterior interbody versus posterolateral, 812
osteogenic protein versus autologous interbody arthrodesis in thoracic spine and, comparative endoscopic study of, 509
patient outcomes after decompression and instrumented posterior spinal fusion for spondylolisthesis and, 561
posterior, proximal kyphosis after, in patients with idiopathic scoliosis, 795
posterolateral
augmentation of spinal arthrodesis with autologous bone marrow in, 434
healing process of, spinal instrumentation and, *in vivo* animal model of, 1058
recombinant human bone morphogenetic protein 2 to promote, in nonhuman primate anterior interbody fusion model, 629
revision strategies for salvaging or improving failed cylindrical cages and, 2147
for scoliosis, selection of levels using torsional correction techniques and, 1728
for spondylolisthesis, one-stage decompression and posterolateral and interbody fusion and, 709
transoral, with internal fixation, for displaced hangman's fracture, 295
Spinal growth, spinal growth and Risser grade in, correlation of, 535
Spinal instability, cervical, caused by high-speed axial compression, biomechanics of, 440
Spinal instrumentation
anterior, for thoracolumbar spine, static and fatigue properties of, 1406
anterior and posterior, for correction of adolescent scoliosis, comparison of, 225
healing process of posterolateral spinal fusion and, *in vivo* animal model of, 1058
implantable electrical stimulation with, in high-risk spinal fusion population, 465
maintaining lordosis with anterior single solid-rod instrumentation in thoracolumbar and lumbar adolescent idiopathic scoliosis and, 1655
posterior, primary, for scoliosis, patients' perceptions of overall function, pain, and appearance after, 1693
for scoliosis, adolescent, comparison of techniques for, 2011
titanium, metal debris from, 899
*in vitro* effects of instrumentation on multilevel cervical strut-graft mechanics and, 2366
Spinal manipulation
cervical, vertebrobasilar artery dissection after, risk factors and precipitating neck movements causing, 785
electromyographic responses of back and limb muscles associated with, 146
Spinal nerves
anatomic relation between cervical pedicle and adjacent neural structures and, 451
anatomic relation of lateral mass screws to, comparison of techniques for, 2057
Spinal stenosis
lumbar. *See* Lumbar spine, stenosis of

combined, in adult spinal deformity patients, 355
cranial nerve palsy as complication of operative traction and, 585
for disc herniations, far lateral L3-L4 and L4-L5, 1234
for dysplastic spondylolisthesis, in children, complications in, 1701
effect of operative position and short-segment fusion on maintenance of sagittal alignment of lumbar spine and, 58
foot drop following, due to gas bubble, 299
Hippocrates' contributions to, 1381
intraoperative experience with neuromotor evoked potentials and, 2030
intraoperative monitoring and, 2648
intraoperative radiation therapy for metastatic tumors and, 470
laparoscopic, for lumbar interbody fusion using BAK cages, 2171
lumbar, posterior, serial changes in trunk muscle performance after, 1023
for lumbar disc herniation and, return to work after, 872
medical decision making principles and, 493
for metastatic disease
complications, survival rates, and risk factors of, 1943
symptomatic, postoperative outcome and quality of life and, 2240
monitoring of neurogenic mixed evoked potentials elicited by anterior spinal cord stimulation through thoracoscopy during, 2025
patient outcomes after decompression and instrumented posterior spinal fusion for spondylolisthesis, 561
posterior, external iliac artery occlusion in, 823
pressure-controlled discography and, ability to predict outcomes, 371
randomized trials and, 2548, 2550, 2553, 2556
for scoliosis
blood loss and coagulation factors in, effects of deamino-8-D-arginin vasopressin on, 877
with Duchenne's muscular dystrophy, process measures and patient/parent evaluation of, 1300
Scoliosis Research Society instrument for evaluation of surgical outcome with, 1435
secondary to cerebrocosto-mandibular syndrome, 908
for spondylolisthesis, one-stage decompression and posterolateral and interbody fusion for, 709
for stenosis, 1043
lumbar, decompressive relief and its relation to clinical outcome in patients undergoing, 1010

T

Thoracic spine
anterior column structural allografts in, 5-year follow-up of, 967
burst fractures of, surface strain distribution on vertebrae under axial compression and, 1197
deformities of, in diastrophic dysplasia, surgical arthrodesis in, 2325
disc herniation in, mimicking acute lumbar disc disease, 416
discography in, in asymptomatic and symptomatic individuals, 1548
evaluation of pedicle screw position in, plain radiographs and computed tomography for, 1926
magnetic resonance imaging of, in asymptomatic and symptomatic individuals, 1548
osteogenic protein versus autologous interbody arthrodesis in, comparative endoscopic study of, 509
pedicle screws in, morphometric and cadaveric study for placement of, 114
solitary exostosis of, early diagnosis and treatment of, 2109
spinal cord compression in, sciatica caused by, 1265
Thoracolumbar spine
anterior instrumentation systems for, static and fatigue properties of, 1406
biomechanics of anterior thoracolumbar implants in cadaveric spines and, 213
burst fractures of
neurologic injury and recovery in patients with, 290
three-column, without neurologic deficit, nonsurgical treatment of, 412
maintaining lordosis with anterior single solid-rod instrumentation in thoracolumbar and lumbar adolescent idiopathic scoliosis and, 1655
surgery of, thromboembolic complications after, 1471
total spondylectomy of, stability of reconstruction methods after, 1634
unstable injuries of, treatment using Cotrel-Dubousset instrumentation, 2352
Thromboembolism, complicating thoracolumbar surgery, 1471
Traction
lumbar, motorized, for low back pain, interferential therapy and massage compared with, 1579
magnetic resonance imaging before and after closed traction reduction of cervical spine dislocations and, 1210
operative, cranial nerve palsy as complication of, 585
Transforming growth factor beta 1, modulation of intervertebral disc biologic activity by, 2419
Transfusions, hemodilution to reduce requirements for, in adolescent spine fusion surgery, 219
Transverse process screws, loads to failure of pedicle and transverse process screws of upper thoracic spine and, 654
Tricalcium phosphate, lumbar arthrodesis with, after laminectomy in nonhuman primates, 1179
Tumors
anterior versus circumferential spinal reconstruction for, biomechanics of, 445
extraspinal, bone and soft-tissue, sciatica due to, 1611
metastatic. *See* Metastatic disease
of spinal cord, T-saw laminoplasty for, 1363
surgery for, complications, survival rates, and risk factors of, 1943

V

Vasopressin, deamino-8-D-arginin, effects on blood loss and coagulation factors in surgery for scoliosis, 877
Vertebral bodies
lumbar, multiple gigantic arteriovenous malformations with destruction of, 1377
measurement of strain distributions within, by texture correlation, 10
Vertebral centroid measurement, of lumbar lordosis, Cobb technique compared with, 1786
Vertebrobasilar artery, dissection of, after cervical trauma and spinal manipulation, risk factors and precipitating neck movements causing, 785
Vertebroplasty, unipedicular versus bipedicular, biomechanical efficacy for management of osteoporotic compression fractures and, 1772
Vibration
of paraspinal muscles, effect on position sense of lumbosacral spine, 1328
whole-body, effect on low back, 2506
Vitamin E, in spinal cord injury, silicone rubber microangiography and, in rats, 2201

W

Wavelet analysis, of electromyography for back muscle fatigue detection during isokinetic constant-torque exertions, 1791
Whiplash injury
biomechanical experimentation and, 83
literature refuting, review and methodologic critique of, 86
motion analysis of cervical vertebrae during whiplash loading and, 763

Y

Yellow ligament, lumbar, membranocystic lesion in, 1147
Young adults, with Cushing's disease, severe kyphosis secondary to glucocorticoid-induced osteoporosis, 189
